# ABOUT THE DOCUMENT

This document outlines the TOP consortium strategy seeking to ensure the sustainability of the project after the funding end, as well as to ensure proper knowledge transfer and maximize the impact of the TOP model alongside its tools and good practices on sectoral policies and Institutions, in Europe and beyond.

The document is the result of a group effort coordinated by the project coordinator, OLTRE SRL, which in the last months of the project brought out concrete trajectories for the sustainability and transferability of the TOP platform tool, having been soundly piloted across the countries directly involved in the partnership.
